

NEB Taskforce Meeting

Lost in NEB? Examples, visions and the way forward

Tuesday 29 November | 10:00 – 12:00

Kindly hosted by

Representation of the European Region Tyrol - South Tyrol – Trentino
45–47 Rue de Pascale B-1040 Brussels

The New European Bauhaus (NEB) aims to accelerate the transformation of our living environments into more beautiful, sustainable and inclusive places. Two years after the State of the Union address by President von der Leyen, where the NEB initiative was officially mentioned, this event aims to discuss the initiatives from different perspectives taking stock of what has been implemented so far, understanding the various links to get a clear, coherent picture, and exploring the next steps.

We will hear representatives from a funded lighthouse project, a funded prize, an NEB lab community-led project and a stakeholder who would like to be more involved in the NEB activities. These presentations will focus on the objectives, expectations, struggles and needs related to the NEB. After this panel, we will hear about the CrAft project, followed by a representative from the New European Bauhaus Friendship Group in the European Parliament who will present the recent resolution on the NEB ([link](#)). Finally, we will have the possibility to hear representatives from the JRC present the following years' activities in terms of vision, funding, and strategies to be involved. The event will have a hybrid format. We strongly encourage Brussels-based colleagues to join in person to facilitate the networking activities. The meeting will be preceded by a coffee welcome and followed by a network reception.

09:45	Welcome coffee
10:00	Welcome and introduction <i>ERRIN representatives</i> Moderation: <i>Anna Spechtenhauser, Stuttgart Region, co-leader of the ERRIN Design & Creativity Working Group</i>
